

The Achievement Centre

ELL

A targeted language programme for children from Foundation Stage 1 to Year 6 for whom English is an additional language

About our programme

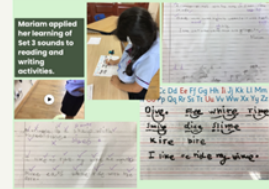

The purpose of the English Language Programme (ELL) is to help children whose first language is not English acquire a proficient level of English so that they can access classroom learning.

ELL may be identified on entry or by class teachers.

After initial ELL assessments, targets are written in collaboration with the child's class teacher.

Individualised targets are set according to each child's linguistic needs and revised at the end of each term.

The ELL programme focuses on developing linguistic skills such as speaking, listening, reading and writing. Vocabulary is a big focus of our lessons.

ELL sessions

Our ELL team deliver target driven, engaging lessons to children across the school. Sessions will address targets as well as support classroom learning through pre-teaching classroom vocabulary.

The number of sessions varies depending on the child's language level.

Learning will be shared through Seesaw. Pictures and videos will

allow you to be part of the learning process.

Parent partnerships are important to us; we welcome you as part of our target setting as well as providing strategies for you to support at home. You will be invited to termly meetings to share progress and update you on their learning.

This support is paid. Sessions vary on child's level and will be shared termly through a letter which details the total cost for the term. The maximum monthly cost is 500AED.

The invoice is sent home at the beginning of each term and is payable at the accounts department.
